Record Types

☐ Currency

Allows users to enter a dollar or other currency amount and automatically formats the field as a currency amount. This can be useful if you export data to Excel or another spreadsheet.

☐ Date

Allows users to enter a date or pick a date from a popup calendar.

☐ Date/Time

Allows users to enter a date and time, or pick a date from a popup calendar. When users click a date in the pop-up, that date and the current time are entered into the Date/Time field.

☐ Email

Allows users to enter an email address, which is validated to ensure proper format. If this field is specified for a contact or lead, users can choose the address when clicking Send an Email. Note that custom email addresses cannot be used for mass emails.

☐ Geolocation

Allows users to define locations. Includes latitude and longitude components, and can be used to calculate distance.

☐ Number

Allows users to enter any number. Leading zeros are removed.

☐ Percent

Allows users to enter a percentage number, for example, '10' and automatically adds the percent sign to the number.

☐ Phone

Allows users to enter any phone number. Automatically formats it as a phone number.

☐ Picklist

Allows users to select a value from a list you define.

☐ Picklist (Multi-Select)

Allows users to select multiple values from a list you define.

☒ Text

Allows users to enter any combination of letters and numbers.

☐ Text Area

Allows users to enter up to 255 characters on separate lines.
